SEO

There were issues affecting this run of Lighthouse:

- There may be stored data affecting loading performance in this location: IndexedDB. Audit this page in an incognito window to prevent those resources from affecting your scores.
- The page loaded too slowly to finish within the time limit. Results may be incomplete.

Values are estimated and may vary. The [performance score is calculated](#) directly from these metrics. [See calculator.](#)

PASSED AUDITS (18)

Show

Accessibility

These checks highlight opportunities to [improve the accessibility of your web app](#). Automatic detection can only detect a subset of issues and does not guarantee the accessibility of your web app, so [manual testing](#) is also encouraged.

ARIA

- ▲

Elements with an ARIA `[role]` that require children to contain a specific `[role]` are missing some or all of those required children.

▼
- ▲

Elements use prohibited ARIA attributes

▼

These are opportunities to improve the usage of ARIA in your application which may enhance the experience for users of assistive technology, like a screen reader.

CONTRAST

▲	Background and foreground colors do not have a sufficient contrast ratio.	▼
---	---	---

These are opportunities to improve the legibility of your content.

NAMES AND LABELS

▲	Select elements do not have associated label elements.	▼
---	--	---

These are opportunities to improve the semantics of the controls in your application. This may enhance the experience for users of assistive technology, like a screen reader.

ADDITIONAL ITEMS TO MANUALLY CHECK (10)

Show

These items address areas which an automated testing tool cannot cover. Learn more in our guide on [conducting an accessibility review](#).
